8th Floor, Tower-B, World Trade Centre,  
Nauroji Nagar, New Delhi 110029

No. ADMN-11017/6/2024-CERC-Part(1)

Dated, the 21<sup>st</sup> April, 2026

**Sub: Engagement of Individual Consultant in the capacity of Senior Advisor to assist in coordinating and managing participative issues in the context of the proposed Regulatory/research Studies**

### **1.0 Background:**

**1.1** The Central Electricity Regulatory Commission constituted under the erstwhile Electricity Regulatory Commissions Act, 1998 (short as "ERC Act") was recognized as the Central Electricity Regulatory Commission (short as "CERC") under the Electricity Act, 2003. The Electricity Act, 2003 has significantly enlarged the spectrum of responsibility of the Central Electricity Regulatory Commission. The Central Commission has been vested with the functions under the Electricity Act, 2003 (short as "the Act") to regulate the tariff of the generating companies owned or controlled by Central Government, generating companies having a composite scheme for generation and sale of electricity in more than one State, to regulate inter-State transmission of electricity and determination of tariff for inter-State transmission in electricity and development of market among other functions.

### **1.2** Following are the statutory functions of CERC:

- (a) To regulate the tariff of generating companies/ transmission licensees owned or Controlled by the Central Government;
- (b) To regulate the tariff of generating companies/ transmission licensees other than those owned or controlled by the Central Government specified in clause (a), if such generating companies enter into or otherwise have a composite scheme for generation and sale of electricity in more than one State;
- (c) To regulate the inter-State transmission of electricity;
- (d) To determine tariff for inter-State transmission of electricity;
- (e) To issue licenses to persons to function as transmission Licensee and electricity trader with respect to their inter-State operations;
- (f) To adjudicate upon disputes involving generating companies or transmission licensee in regard to matters connected with clauses (a) to (d) above and to refer any dispute for arbitration;
- (g) To levy fees for the purposes of this Act;
- (h) To specify Grid Code having regard to Grid Standards;
- (i) To specify and enforce the standards with respect to quality, continuity and reliability of service by licensees;

- (j) To fix the trading margin in the inter-State trading of electricity, if considered, necessary;
- (k) To discharge such other functions as may be assigned under this Act.

1.3 Under section 66 of the Electricity Act, CERC has been mandated to take steps for promoting the development of a market (including trading) in power taking into account the National Electricity Policy. Under section 60 of the Act, CERC has also powers to deal with situations of market domination. It can issue appropriate directions to a licensee or a generating company if such an entity enters into any agreement or abuses its dominant position or enters into a combination which is likely to cause or causes an adverse effect on competition in electricity industry.

1.4 The Act has also given advisory role to CERC. It has been mandated to advise the Central Government on the matters relating to formulation of National Electricity Policy and Tariff Policy, promotion of competition, efficiency and economy in activities of the electricity industry, and promotion of investment in electricity industry.

1.5 The Commission in discharge of its functions is assisted by different wings. The activities presently handled by the Legal Wing involve inter alia drafting of orders, regulations, record of proceedings of oral hearings, assisting the Commission in discharge of its proceeding as per the CERC (Conduct of Business) Regulations, 1999 etc.

1.6 The Commission receives petitions for determination of tariff for generating stations/units, transmission systems, petitions for grant of license and also petitions of miscellaneous nature.

1.7 The electricity sector is governed by multiple policies and regulations, but frequent policy changes, systemic delays, etc create hurdles in sectoral development. Regulatory uncertainty discourages private sector participation and foreign investment in power generation and distribution. Ensuring consistency in policies, reducing regulatory delays, and improving regulatory governance in the sector are necessary to enhance efficiency and investment inflows. It is expected that in the years to come, there would an increase in the regulatory and developmental issues being dealt/ to be dealt by the Commission. The process for inviting proposals from academic or research institutions and organisations by way of providing Consultancy Services to the Commission on "Regulatory Research and Analysis for the Energy Sector", is underway.

1.8 In view of the above activities, CERC proposes to engage one Individual Consultant in the capacity of Senior Advisor having in-depth Techno- financial/ Commercial/ Regulatory knowledge and experience in the Power Sector and allied matters.
